Firenze, 23 giugno 2015

Dear TCM Group,
thank you very much for the generosity shown towards the Meyer Children's Hospital Foundation.

The Meyer Foundation supports the **scientific research** and the continuous **technological upgrading** of equipment, the activities of **healthcare excellence** and those of **hospitality** for our young patients (clowns and music in the wards, pet therapy, game room) and for their families who come from afar.

All kind of help is important for the maintenance of our standards of care and for the **progress in the diseases' research** and, at the same time, to reduce anxiety and stress that a child may feel being in a hospital.

All the projects that we support, with maximum transparency, are for our young patients and they are made possible thanks to donations from individuals and businesses/companies.

We are sure that you will help us ensure better and more effective care for all those children who come to Meyer from all over Italy.

A heartfelt thanks,

Meyer Children's Hospital Foundation Onlus
